

Bridgwater Tidal Barrier – feedback from Chilton Trinity

In June we asked Chilton Trinity residents for their thoughts and ideas on the visual appearance of the Bridgwater Tidal Barrier, associated infrastructure and landscape. Forty-one residents came to our event and here's what some of the 16 feedback forms said:

Person favoured lighting the barrier. Ten disagreed.

Think the barrier should be part of the landscape. Two preferred 'iconic'.

Favour a footpath/cycle path, but four don't. One has mixed feelings.

Are in favour of trees and similar being planted in the landscape

Suggestions and concerns

- Keep the structure 'open', not solid.
- Build a visitor centre.
- Footpath along Wilds Road to town.
- Don't make us a sacrificial area to protect those upstream.
- People will park in Express Park.
- Will it affect property value?
